---

20-120kWh modular battery storage system for commercial, solar, and backup applications. Scalable, high-voltage solution with LiFePO4 safety and BMS.

Powerful 50KW/120KWh hybrid energy storage solution with integrated inverter, BMS & EMS. LFP batteries, redundancy design. Expandable up to 120KWh.

The Energy Storage Battery System consists of a 20-foot prefabricated compartment, which includes a battery on-site monitoring, chillers, and more. The product is based on battery clusters and can cover ...

The product is suitable for outdoor installation with an IP55 system level rating and a IP65 battery pack rating. The battery storage system is ideal for small scale commercial and industrial (C& I) applications.

The BYD OSN-P120B274-U is a cutting-edge outdoor energy storage system designed to deliver exceptional performance and reliability. Utilizing advanced lithium iron phosphate (LFP) technology, ...

GSL ENERGY High-Voltage Rack Energy Storage System -- 51.2V 200Ah modular modules, total capacity ~120kWh. Built for commercial & industrial workloads: reliable, safe, and ...

This isn't just a battery; it's a fully integrated power fortress, combining a massive 120kWh LiFePO4 battery bank, a powerful 50kW inverter, and a sophisticated thermal management system within a ...

The company focuses on R& D, production, and sales of new energy technology. We have the most advanced R& D and manufacturing equipment in hydrogen and lithium energy storage products.
