The outdoor battery enclosure is a housing, cabinet, or box that can be used outdoor and specifically designed to store or isolate the battery and all its accessories from the external environment.

The Lithium-ion battery solution significantly reduces battery footprint and weight to allow more effective use of space. It also doubles battery life and simplifies maintenance compared to traditional batteries.

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and ...

Reduces the battery room size and increases tolerance to a wider operating temperature range, which allows you to decrease the capacity of the cooling solution. Lithium-ion technology doubles battery ...

Designed for solar systems, RVs, marine use, and off-grid applications, it offers over 6000 charge cycles and a 10-year lifespan --making it a superior alternative to lead-acid batteries.

This advanced lithium iron phosphate (LiFePO₄) battery pack offers a robust solution for various energy storage applications. The ESS solution is a highly integrated, all-in-one, C& I Hybrid energy storage ...

Battery cabinet that includes Lithium-ion batteries, Battery Management System (BMS), switchgear, power supply, and communication interface.

BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application. Browse our products today to find what you need.
