We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

ESS Power Station, also known as large container storage array, it can be connected to power grid scheduling and participate in demand-side response and other services.

PKENERGY 1MWh Battery Energy Solar System is a highly integrated, large-scale all-in-one container energy storage system. Housed within a 20ft container, it includes key components ...

1MW Energy Storage System is highly integrated with lithium battery, battery management system, PCS, grounding system, power distribution system, temperature control system and fire protection ...

Containerized Bess 500kwh 1MW 20FT 40FT Container Solar Storage System This scheme is applicable to the distribution system composed of photovoltaic, energy storage, power load and ...

With a compact design (600x600x2200 mm), it efficiently manages power functions, offering reliable operation at a rated working voltage of 1500 VDC. Suitable for advanced power supply systems. This ...

Containerized BESS with 1MW PCS and 2MWh battery storage designed for utility scale solar and Solar Power Plant applications. Ideal for peak shaving, energy shifting, and grid stability.

The 1MW BESS systems utilize a 280Ah LFP cell and air cooling system which offers a better price to power ratio. Each BESS is on-grid ready making it an ideal solution for AC coupled ...
