What is a Megatron 1MW battery energy storage system (AC coupled)?

The MEGATRON 1MW Battery Energy Storage System (AC Coupled) is an essential component and a critical supporting technology for smart grid and renewable energy (wind and solar). The MEG-1000 provides the ancillary service at the front-of-the-meter such as renewable energy moving average, frequency regulation, backup, black start and demand response.

Which energy storage container is suitable for advanced power supply systems?

Suitable for advanced power supply systems. This 40ft energy storage container features LiFePO4 battery modules with long cycle life and robust safety. It supports modular expansion, remote monitoring via EMS, and fire protection.

Why should you choose a Meg 1600 battery?

Utilizing string architecture topology vs traditional centralized PCS design, the MEG 1600 allows for better system availability and lower maintenance downtimes. The 8 PCS by 8 battery string configuration ensures better charging efficiency and the potential for less circulating current found in some centralized BESS designs.
