Charles Universal Broadband Enclosures (CUBE) are constructed to withstand the elements and provide superior protection for active electronics in all environments.

Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies, utilities, and network operators with BABA-compliant solutions that ...

Outdoor Telecom Cabinets are rugged enclosures designed to protect telecommunications equipment from environmental factors while providing secure access for maintenance.

As telecom networks, CCTV systems, and smart city infrastructure continue to expand outdoors, the communication cabinet is no longer a passive metal box. It has become a critical system...

We design and manufacture high-quality custom enclosures, while providing professional assembly, system integration, and tailored support services for telecom, solar, and industrial equipment across ...

Designed with durability and environmental protection in mind, these enclosures are ideal for industries such as telecommunications, energy storage, power distribution, and outdoor monitoring systems.

Contemporary designs for outdoor telecom equipment cabinets represent engineered systems rather than mere boxes. They address environment protection, thermal management, and ...

Our cabinets are built to withstand harsh weather conditions and provide excellent protection for power management systems, telecom base stations, energy storage battery systems, and radio equipment.
