What are factory-packaged containerized generator sets?

Our factory-packaged containerized generator sets are designed to address these challenges comprehensively. They offer a reduced footprint, improved ease of transportation and significantly shorter lead times.

What is a centumtm force containerized generator set?

CentumTM Force containerized generator set are engineered for fast start-up and optimized for diverse critical power requirements. Each generator is equipped with an advanced paralleling control module, allowing it to support a fast start of multiple units paralleled for power demands in emergency situations.

What size generator container do I Need?

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient conditions. Customized sizes to accommodate special project requirements are available on request.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

When was this MTU 16V4000L64F genset manufactured? This MTU 16V4000L64F genset was manufactured in the year 2020. Is this equipment containerized for transport and installation? This ...

Multiple power output configurations are available in 50Hz, from 2,000kVA to 2,750kVA (2 MW to 2.75 MW). Fully integrated CentumTMForce containers can protect the generator set from wind, rain and ...

Simply put, dual packs are two parallel generators in one ISO container: Two 500 kW generators could be paralleled to achieve a 1000 kW output, or two 625 kW generators to achieve 1250 kW. This dual ...

Ever Power devoted itself to research, manufacture and maintenance of famous diesel gensets in the past 15years. Capacity from 5KW up to 3000KW. With the steady quality and advanced ...

Engineered for efficiency, durability, and low emissions, this natural gas generator is ideal for backup power, peak shaving, and continuous power supply. High Efficiency & Performance - Equipped with ...
