A Korean-led development group that includes Hyundai Engineering & Construction has broken ground on a \$524 million, 350 MW solar project in Texas. Project Lucy is a large-scale solar ...

The DOI announced on Monday (3 May) that the Bureau of Land Management (BLM) has given final approval to the Crimson Solar Project, a 350MW solar PV array with a 350MW/1,400MWh ...

The facility will be powered by Entergy Arkansas's strong existing generation power portfolio and transmission grid which will be bolstered by a new 600-megawatt solar project, backed ...

Work on a Korean-led utility-scale solar project in the heart of Texas is now under way. A U.S. and South Korea partnership gathered in Concho County to inaugurate the 350-MW Lucy Solar Project.

Yesterday, global energy leaders celebrated the groundbreaking of the Lucy Solar Project, a 350-megawatt (MW) utility-scale solar farm located in Concho Coun...

The 350 MW of solar modules transported by Fura are projected to generate approximately 750,000 megawatt-hours (MWh) of clean electricity annually -- enough to power over ...

Reliance Power on Monday (May 12, 2025) said its arm Reliance NU Energies has secured a 350 megawatt (MW) solar project with a 175 MW/700 MWh of battery energy storage ...

Luminous Power Technologies has been awarded contracts for 350 MW of solar capacity under the PM-KUSUM scheme in Rajasthan, expected to generate up to 560 million units of ...
