Composed of 15 prismatic 3.2V cells, WT48150 has been tested at 6000+ deep discharge cycles to 80% DOD @68 F with IP54 enclosure and set up RS282, RS485, Can port. it supports max 100A charge ...

The battery pack supports a maximum continuous charge and discharge current of 150A, which can meet the current output requirements of high-load equipment such as communication base stations ...

Discover high-density 48V communication base station batteries with 10+ year lifespan, intelligent BMS, and customizable capacity. Ideal for industrial backup power. Get a quote today.

A 48V 150Ah telecom rack-mounted lithium battery delivers high-capacity, reliable power with long cycle life and advanced safety features, ensuring uninterrupted operation of critical telecom infrastructure.

The 4U 48V 150Ah LiFePO4 Battery Pack is a powerful and dependable energy storage solution for a variety of applications. High Capacity (150Ah): Store more solar energy or provide extended backup ...

Low temperature charging cut-off protection. Cells and Packs are all UL Listed. Low maintenance batteries with stable chemistry. Battery Management System (BMS) is incorporated PROTECTION ...

With a nominal voltage of 48V and a substantial capacity of 150Ah, this battery module is designed to fit standard rack systems, facilitating easy installation and efficient space utilization.

This article provides a clear and practical overview of 48V 150Ah LiFePO4 telecom batteries, explaining how they work, why they matter, and how to choose the right solution for long ...
