High-quality 5MWh energy storage systems, certified to international standards and trusted in 160+ countries. End-to-end service, from pre-sale consultation to after-sales support.

The 5MWh Liquid-Cooled Energy Storage Container is a high-capacity, modular energy storage solution designed to enhance grid stability, optimize energy use, and support ...

With a compact footprint and high energy density, the DC cabin maximizes energy storage capacity while minimizing space requirements. Equipped with an intelligent energy management system, it ...

The HJ-G0-5000F is a 5 MWh lithium iron phosphate (LFP) energy storage system, designed for reliability in harsh environments. With LFP 3.2V/314Ah cells, $\leq 3\%$ self-discharge, and $\leq 5\%$ SOC ...

Product features(Containerized Energy Storage System): Low energy consumption, long life, high consistency, high stability. Application scenarios: photovoltaic power plants, wind power stations, ...

The 5MWh ESS is a turnkey energy storage solution designed for industrial and commercial applications. It combines high-capacity battery modules with a reliable PCS inverter system, all within ...

The 5MWh BESS comes pre-installed and ready to be deployed in any energy storage project around the world. We can offer flexible deployment of multiple battery containers supporting both back-to ...

The 5MWh container energy storage system is a super cool solution that seamlessly combines different parts, like a Lithium iron phosphate battery, Battery Management System, Gaseous Fire Suppression ...
