The CHARX power basic 30 kW fast charging modules are available as AC/DC converters and DC/DC converters. They can be installed directly into the charging station to provide a stable power supply ...

All of our low to medium power AC-DC power supplies are high-efficiency switch-mode designs and feature a universal AC input, making them suitable for use almost anywhere in the world.

Comprehensive range of AC DC power module supplies with detailed specifications, including wattage, efficiency, and protection features.

NEC Corporation (NEC; TSE: 6701) today announced the development of a high-efficiency, compact Power Amplifier Module (PAM) for the sub-6GHz band, designed for integration ...

The Scout is a compact, high power density 12 volt rack mount DC power system that brings telecom power technology to 12 volt base station radio applications to power transmitters and maintain back ...

NEC plans to incorporate this PAM into new RUs scheduled for release in the first half of fiscal year 2026 (\*2) and also envisions a global deployment of the PAM as a standalone product, ...

Samlex switching power supplies are highly efficient, lightweight and compact. AC-DC power supply units available in 120V, 240V or Universal AC input for global use.

The latest power amplifier module (PAM) developed by NEC Corporation is a compact and highly efficient solution for the sub-6GHz band, specifically designed for seamless integration into 5G ...
