In a remarkable advancement for renewable energy, the United Arab Emirates, under the auspices of His Highness Sheikh Mohamed bin Zayed Al Nahyan, President of the UAE, has ...

In a world first, the UAE has launched a giga-scale project that combines solar power with massive battery storage to provide round-the-clock renewable energy. That's right - clean, green ...

Masdar and EWEC are pioneering the world's first gigascale, 24/7 solar and battery storage facility in Abu Dhabi, aiming to produce continuous renewable power and revolutionise global ...

Masdar-EWEC project combining solar and batteries to provide "round-the-clock" renewables unveiled at Abu Dhabi Sustainability Week.

By integrating cutting-edge solar technology with reliable energy storage, Abu Dhabi is positioning itself as a global leader in clean energy. The project aims to generate massive amounts ...

Delivering up to 1 gigawatt (GW) of baseload power every day generated from renewable energy, it will be the largest combined solar and battery energy storage system (BESS) in the world.

Abu Dhabi-based renewable energy company Masdar and Emirates Water and Electricity Company (EWEC) have announced the launch of the "world's largest" combined solar and battery ...

Valued at approximately AED232 billion (around US\$5.9 billion), this project will integrate 5.2 gigawatts of solar photovoltaic power with a 19-gigawatt-hour battery energy storage system.
