What is an outdoor telecom enclosure?

Our outdoor telecom enclosures support a wide range of telecommunications and infrastructure needs: Fiber Optic Networks: From compact fiber distribution units to high-capacity data center enclosures like the AP-Data with six slack frames, our cabinets manage dark-fiber volumes with organized cable management and secure slack storage.

Where are outdoor Telecom enclosures made?

Every outdoor telecom enclosure we manufacture is designed, fabricated, and assembled entirely in the USA. Our commitment to American manufacturing means you receive consistent quality, faster lead times, and complete Build America, Buy America (BABA) self-certification documentation with every order.

What is a MDU enclosure?

Our top-hinging, medium-security MDU enclosure provides protected access for multi-dwelling fiber or telecom equipment and features a durable powder-coated design, secure hinged door, ample cable routing space, and flexible mounting options for broadband and telecom distribution needs.

Why should you choose armorlogix outdoor enclosures?

Efficient outdoor enclosures ensure reliable performance and longevity under harsh weather. ArmorLogix is a leading manufacturer of outdoor enclosures with decades of experience creating turnkey solutions across industries. We optimize our weatherproof enclosures to save you time and money with premium cooling, insulating, and security features.

Segmented compartments for multitenant or hybrid configurations. Vikinor outdoor enclosures are engineered for long service life under harsh weather conditions. They maintain internal equipment ...

Versatile installation features: Our enclosures have two universal wall and pole mounting brackets and an adjustable and removable back plate. This construction allows for smooth installation on various ...

Westell offers secure, weather-tight outdoor network enclosures to protect electronic equipment for outdoor telecom networks.

Canovate Hybrid outdoor enclosures offer a compact, all-in-one solution for telecom, integrating OLT, power, fiber, and cooling.
