Does Belgium have a 5G network?

The 5G network coverage can be viewed here. Overall, the 5G network appears to be better developed in the northern area of Belgium, in particular in Antwerp, Ghent and coastal cities, as well as in the periphery of Brussels. This is partially due to higher population density in these areas.

When were 5G regulations adopted in Belgium?

5G regulations were finally adopted on 28 November 2021. The national regulatory authority (the Belgian Institute for Postal Services and Telecommunications or BIPT) then adopted a series of individual decisions on 23 August 2022 and 16 November 2022 granting 5G user rights to the following operators:

Which B2C network has the best 5G coverage in Belgium?

In terms of B2C territorial coverage, Telenet has the greatest 5G outdoor coverage with 85% of the Belgian territory, followed by Proximus with 75% and Orange Belgium with 63%. Telenet has the broadest B2C 5G indoor coverage with 57% of the territory, followed by Proximus with 43% and Orange with 40%.

Who supports the 5G infrastructure PPP?

The 5G Infrastructure PPP and its website are supported by the 6GStart Project for the period May 2022 - Sept 2024. 6GStart is a support action project under the Horizon Europe Research Programme of the European Union. For more information visit the project website
