New Delhi, Jan 15 (IANS) A groundbreaking ceremony for a 240 kW grid-integrated and 25 kW off-grid solar project at Bhutan's Jigme Namgyel Engineering College in Dewathang took place on...

Developed by the Bhutan Energy Research and Development Center (BERDC) with support from the International Solar Alliance (ISA), the roadmap focuses on deploying large-scale ...

With rising temperatures and erratic rainfall threatening its energy lifeline, Bhutan is quietly investing in solar power as a resilient alternative to secure its future.

Nearly all of Bhutan's electricity comes from its glacier-fed hydropower plants. In a first major step towards diversifying its energy mix, the Himalayan Kingdom initiated a 180-kW grid-tied ...

The project aims to install 30 MW of solar PV and strengthen the regulatory environment to accelerate Bhutan's renewable energy market, fully realising its solar energy plan of 1000 MW as planned by ...

Bhutan's unique geography presents both opportunities and challenges for solar energy deployment, particularly in off-grid rural electrification and backup energy for remote villages.

Bhutan has launched its first fully solar-powered smart village in the eastern district of Trashigang. The initiative, supported by the Asian Development Bank and Bhutan's Ministry of ...

Provision of diverse forms of Green and Renewable Energy solutions and Energy Efficiency options aimed at enhancing energy security and sustainable development of the country.
