Built on a 332,900-square-meter former landfill site in Kampong Belimbing, Mukim Kota Batu, the plant will generate over 64,000MWh of clean electricity annually. Beyond power generation, ...

In a move poised to reshape Brunei's energy landscape, a tri-national joint venture led by Malaysia's Solarvest Holdings Berhad has secured the contract to develop the country's largest solar ...

Brunei has announced the development of a 30 MW solar power plant in Kampung Sungai Akar, a major project set to boost the nation's renewable energy capacity.

In addition to providing clean energy, the project will create local job opportunities and serve as a practical learning center for solar technology--helping Brunei advance toward a low ...

Construction has started on a 30-megawatt solar photovoltaic power plant in Kampong Belimbing, set to become Brunei's largest solar facility.

It will be located on a remediated landfill site covering 32.29 hectares and is scheduled to be operational by the end of 2026. Once completed, the project is expected to produce over 64,000 ...

Solarvest confirmed in a filing to Bursa Malaysia that the government of Brunei has signed a 25-year power purchase agreement effective from the plant's commercial operation date. ...

The project, which originated from a request for proposal (RFP) process launched in 2021, will be developed on a remediated landfill in Brunei. It is expected to generate an annual ...
