The 3.2V CATL LiFePO4 battery cell holds a prominent market position due to its exceptional performance and features. With a growing trend towards off-grid living, this battery cell plays a crucial ...

Nominal voltage of 3.2V, this Lithium iron phosphate battery has a Max Charge Current of 0.5C,max 1C and Max Discharge Current of Continuous 1C,Max 3C. A shell material of Aluminum.

CATL 306Ah LFP LiFePO4 battery cells can meet the needs of high-energy density and long distance travel, as well as safety and reliability. It has been widely applied to battery electric vehicles (BEV), ...

We CATL 302Ah battery is brand new and of Grade A quality. It comes with a QR code serial number and a factory inspection report that allows you to trace its origin.

Product Description CATL 3.2V 161Ah Rechargeable Prismatic 3.2v 160ah Lifepo4 Battery Cell Lithium Battery Product Features: * 100% pre-tested before leaving the factory * Specialized manufacturer ...

We CATL 200Ah battery is brand new and of Grade A quality. It comes with a QR code serial number and a factory inspection report that allows you to trace its origin.

These are high-capacity lithium-ion batteries designed for long-term energy storage applications. The "100Ah" refers to their amp-hour capacity, indicating they can deliver 100 amps of current for one ...

Xiho Catl 3.2V 280Ah LiFePO4 prismatic lithium battery for home energy storage and solar systems. High safety, long cycle life, 100% compatible with solar inverters.
