-----

Chilean clean energy developer Biwo Renovables has received an environmental permit to install a 20.64-MW battery energy storage system (BESS) at a site in the region of Maule, central ...

Huijue Group's Home Energy Storage Solution integrates advanced lithium battery technology with solar systems. Ranging from 5kWh to 20kWh, it caters to households of varying sizes.

In June 2023, the Chilean government announced its intention to introduce a bill to procure large-scale energy storage systems via a \$2 billion energy storage auction in 2024, with commissioning planned ...

In 2022, Chile passed an energy storage and electromobility bill, which made stand-alone storage projects profitable, but the market is still expecting new rules on capacity payment for ...

Chile's energy storage strategy reads like a thriller novel. The Atacama Desert - drier than a British comedy - now hosts South America's largest solar-storage hybrid plant. The Cerro ...

Through the deployment of cutting edge battery storage technology, Fluence is not only addressing the technical challenges of Chile's energy transition but also contributing to the nation's broader ...

From stabilizing the national grid to empowering off-grid communities, energy storage batteries are becoming Chile's invisible energy backbone. As technology costs keep falling (32% since 2020), now ...

Chile's first battery energy storage projects were commissioned in 2009, and all but two of its 16 administrative regions have facilities in operation, under construction or in the planning stage.
