We work with our customers to create your corrosion resistant photovoltaic PV distribution boxes with easy access and egress of lines and cables without bends and tension.

AZE"s heavy duty outdoor battery enclosures and Lithium battery storage system are available in NEMA 3R, or 4X configurations. These outdoor battery enclosures, which come in all shapes and sizes, are ...

Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, fire protection, ...

To accommodate different climates, we provide professional recommendations based on customer usage scenarios and requirements. This ensures that energy storage cabinets maintain excellent ...

Constructed from galvanized or stainless steel and rated up to IP65, it ensures complete resistance to dust, rain, and corrosion while maintaining optimal operating conditions for all internal components.

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

Built to withstand the harshest environments, this cabinet empowers you to store energy efficiently, reduce operational costs, and ensure uninterrupted power when you need it most.

Deye outdoor cabinet is an energy storage device designed for outdoor environments. It has an IP65 high protection level and corrosion-resistant materials, and is suitable for harsh conditions such as ...
