How much does a 20 ft container cost?

A 20ft container in pristine condition may be priced between \$3,000 and \$5,000, while a 40ft container could range from \$5,500 to \$8,000. Pre-owned containers offer a considerable cost advantage, with prices ranging from \$1,500 for a standard 10ft model to approximately \$3,500 for a larger or better-condition 40ft container.

Why is container transport important in Australia?

This standardisation makes container transport one of the most cost-effective ways to move goods across Australia's vast distances. Melbourne's port handles over 37% of Australia's container trade, making it the busiest container port in the Southern Hemisphere.

How much does container transport cost?

Containers are stored in designated yards within the port facility. Most ports offer 5-7 days of free storage before demurrage charges apply - typically \$50-\$100 per day. This is where professional container transport services become invaluable.

How much does a new shipping container cost?

Brand new shipping containers provide the benefit of impeccable condition and extended lifespan. A 20ft container in pristine condition may be priced between \$3,000 and \$5,000, while a 40ft container could range from \$5,500 to \$8,000.
