There are three mechanisms in the PV effect that produce direct current. First, the photons from the sun must be absorbed by the semiconductive cells. Then, they must liberate ...

Solar panels generate electricity through the photovoltaic effect. When sunlight hits the solar cells within the panel, it excites electrons, causing them to move and create an electric current.

The meaning of DIRECT is to cause to turn, move, or point undeviatingly or to follow a straight course. How to use direct in a sentence. Synonym Discussion of Direct.

DIRECT meaning: 1. going in a straight line towards somewhere or someone without stopping or changing direction.... Learn more.
