Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal management, and parallel operation ...

We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services..

Ranging from 208kWh to 418kWh, each BESS cabinet features liquid cooling for precise temperature control, integrated fire protection, modular BMS architecture, and long-lifespan lithium iron phosphate ...

Our liquid-cooling energy storage cabinet is engineered for high-efficiency, scalable ESS solutions. It combines top-tier LiFePO4 cells, advanced liquid cooling, and AI-powered safety features to ensure ...

Utilizing Tier 1 LFP battery cells, each battery cabinet is designed for an install friendly plug-and-play commissioning with easier maintenance capabilities. Each outdoor cabinet is IP56 constructed in a ...

Discover how liquid-cooled outdoor energy cabinets enhance green energy solar systems, hybrid power stations, and energy management.

The Wattainer Liquid-Cooled Series features high-performance, liquid-cooled batteries housed in modular cabinets.

Liquid-cooling 100kw 200kw lithium ion battery ensures efficient heat dissipation, making it ideal for large-scale renewable energy projects and peak load management.
