What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?

Why should you choose a KDM outdoor telecom enclosure?

A KDM outdoor telecom enclosure protects your telecommunications equipment outdoors and withstands outdoor elements such as temperature extremes, dust ingress, ice, shock hazards, and UV damage. It also safeguards against moisture, condensation, chemicals, and corrosive gases that can affect sensitive components within.

What makes DDB a good telecommunication enclosure?

Noticeably lighter than steel, yet strong enough to rack even the heaviest equipment. Provides superior solar protection with its large overhang roof design. Since 1996 DDB has been solving the most complex problems within the telecommunication enclosure industry.

What are NEMA rated outdoor Telecom enclosures?

NEMA-rated outdoor telecom enclosures are cabinets that meet specific application requirements to withstand outdoor elements. They come in various NEMA standards such as 3, 3R, 4, 4X, and 6. Our telecom outdoor cabinets are factory tested, field proven, and worry-free.
