Chinese automaker Deepal Automobile Technology, a unit of Changan Automobile, led electric vehicle sales in Israel in January, according to industry data. Deepal sold 636 EVs in its first ...

That's one out of every four cars on the road! Just five brands--BYD, Tesla, MG, Chery and Geely--dominate this segment, making up 60% of all EV sales in the country.

The Israeli Electric Vehicle (EV) market is undergoing a structural transformation, catalyzed by a confluence of ambitious government decarbonization targets and an influx of international competition.

Hate to break it to you--it takes 4-6 years to break even on an EV purchase in Israel. By then, that shiny Chinese car you're so proud of may not even be sold anymore.

As electric vehicle (EV) adoption continues to rise in Israel, understanding consumer preferences becomes crucial. Israelis are increasingly motivated by environmental sustainability, actively seeking ...

Chinese electric vehicle (EV) manufacturers strengthened their presence in the Middle East at the start of 2025, firmly dominating Israel's electric car market in January and extending their lead ...

In 2024, some 163,000 electric vehicles (EV) drove on Israel's roads--a 70 percent jump in just one year. This figure was up from almost nothing just half a decade ago. Amid steady growth in...

Chinese brands registered 15,108 vehicles in January, up from 10,357 a year earlier, according to data released by the Israeli Vehicle Importers Association. In Israel, one of the Middle ...
