Sinovoltaics unveils the 2025 Europe Solar Supply Chain Map, revealing new manufacturers and widespread factory closures. Discover how transparency and verified production ...

The latest report on the supply chain for European PV module production, provided by Sinovoltaics, a Hong Kong-based quality assurance service firm, details the status of 121 solar manufacturing sites, ...

For more detailed PV insights and analysis of the European solar market, including emerging trends and future projections, refer to the full Europe Solar Supply Chain Map Edition 1 - 2025.

By combining our international experience and local knowledge, we efficiently get the best solar energy products, such as solar panels and batteries, to the right place.

Their first 2025 edition of the Europe, Mediterranean, and Turkey Solar Supply Chain Map (SSCM) highlights the rapid changes taking place at European manufacturing facilities and ...

On this map, you'll find manufacturers spanning from polysilicon to module as well as the aggregate production capacities for each segment. Furthermore, the map includes equipment manufacturers ...

Can European businesses achieve a competitive position in the global solar-PV supply chain and strengthen Europe's energy transition and resilience? It's challenging but a potential ...

The latest report on the supply chain for European PV module production provides the status of 121 solar manufacturing sites, including closures and capacity on hold. It maps plants that ...
