The Mobil-Grid [®] is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and batteries. The ...

The off-grid version consists of a Solarfold container which, in conjunction with a suitable additional storage container, is not connected to the public power grid and functions completely autonomously.

Off Grid Solar container units guarantee security and reliability and allow the engineering team to complete installations in a few days rather than weeks. All sites for the panels are identified in ...

Whether it's storing excess Spanish solar, stabilizing Germany's grid, powering remote Irish villages, or backing up Munich hospitals, it's the flexible, durable solution Europe has been ...

Transform your energy independence dreams into reality through expert designing an off-grid solar system that perfectly aligns with European regulations and climate conditions.

Our all-in-one WaterSecure kit transforms your shipping container into a functioning off-grid enclosure. With two different sizes to choose from - the WS-6K, and WS-12K - you can enjoy up to 6,000, or ...

Are solar containers weatherproof? Learn what makes solar containers truly weather-resistant, from panel durability to battery protection, and how to choose the right system for harsh ...

With a carefully sized solar array, intelligent water systems, and a container shell customized for energy performance, even the most remote sites can offer a comfortable -- and sustainable -- modern life.
