What are the different types of energy solutions in Fiji?

Delivering secure, cost-effective hybrid and utility grade power solutions, for today and the future. Our specialities in Fiji include Solar Energy, Renewable Energy, Hybrid Energy, Distributed Generation, Energy Storage, Off-Grid Energy, Remote Communities, HV, Substations, Grid Connections, Battery Energy Storage Systems (BESS), and Microgrid.

Why do businesses use solar energy in Fiji?

With on-site solar energy generation in Fiji, businesses can generate their own electricity and become less vulnerable to power outages, grid disruptions, and energy supply constraints. Many organisations in Fiji switch to solar energy as part of their commitment to sustainability and reducing their carbon footprint.

Where are totalenergies storage facilities located in Fiji?

TotalEnergies Marketing (Fiji) Pte Ltd. owns six storage facilities in Fiji with the main terminals located at Walu Bay and Rodwell Road in Suva and Vuda Point in Lautoka. Five (5) of these terminals and depots are operated by TotalEnergies while the remaining one (1) is managed and operated by 3rd parties.
