Are solar panels a smart long-term investment in Romania?

With the scheduled removal of the energy price cap on April 1, more Romanians are turning to solar energy to reduce expenses and secure their energy supply. Rising electricity tariffs have further accelerated interest in renewable solutions, particularly in the residential sector, where solar panels are becoming a smart long-term investment.

Will Romania see a surge in photovoltaic projects in 2024 and 2025?

The data shows that 2024 and 2025 might witness a surge in the completion of large-scale photovoltaic (PV) projects in Romania, with over 400 projects expected to contribute significantly to the country's goals. Their total capacity is estimated at 30.5 GW. Obviously, this is the trickiest area in this report.

How many wind farms and photovoltaic parks are there in Romania?

In the broader context of renewable energy in Romania, the country operates more than 14 significant wind farms and 21 photovoltaic parks.

How much money does California owe energy suppliers?

The state currently owes energy suppliers 8 billion lei in compensation for past price subsidies. "Funding programs like Casa Verde, RePower EU, and ElectricUp 2 are keeping the photovoltaic sector in high demand, generating more projects in 2025 than in previous years.

As part of its project-finance growth strategy, Eenergy continues to implement a dedicated financing model for each asset, enabling balanced growth while maintaining financial ...

We took into consideration PV projects with installed capacity larger than 5 MW, meant to inject the power into the grid.

When entering the Romanian market, investors are encouraged by looking at the solar potential (about 210 sunny days per year), geographical characteristics, and even supporting ...

Eenergy secures financing for solar projects in Romania, winning a CfD auction and a deal with RBI for the Parau 2 project.

Romania's energy minister Sebastian Burduja approved the final draft of the 15-year Contracts for Difference (CfD) scheme, aimed to support the development of photovoltaic and wind projects with a ...
