Is GCL a medium sized solar panel manufacturer?

This makes GCL a medium sized solar panel manufacturer. On 19 December 2018, all GCL solar panels were de-listed from the Clean Energy Council's Approved Product List due to the existence of components detected in the testing which was outside the scope of the modules' certificate.

Are GCL solar panels available in Australia?

While in the Australian market some of GCL's solar panels are approved by the Clean Energy Council - none of the major distributors list their solar panels as available. As at June 2021 none of the installation companies on Solar Choice's platform have GCL solar panels listed as one of their offerings.

What is a GCL solar warranty?

The product warranty is designed to cover manufacturing faults in the panel that leads to damage or malfunction and is typically 10 years for most solar panel manufacturers. All GCL Solar panels offer a 10 year standard product warranty which is effectively the minimum expectation of the solar panel market.

Are GCL solar panels good quality?

GCL solar panels show some promise of being good quality (particularly the Saturn and Gemini series) through their ranking as a top performer by PV Evolution Labs independent testing. Unfortunately at this stage their offering in Australia (if it is currently available) lacks good customer support.

Browse and compare solar panels from GCL. Use this guide to compare solar panel products and understand which is best for your installation.

GCL branded modules can be used for both off-grid and on-grid applications. With high-yield efficiency and long-term performance they are ideal for utility, commercial or residential roof-top installations. ...

This appears to have been quickly resolved by GCL as they were back on the CEC Approved Products List on January 3, 2019. While in the Australian market some of GCL's solar ...

This manual applies exclusively to the solar photovoltaic module (here in after referred to as Module) of GCL System Integration Technology Co., Ltd. (here in after referred to as GCLSI). ...

GCL Photoelectric Materials, a subsidiary of GCL Group specializing in the research and production of

perovskite solar cells and panels, has announced that its 1 m x 2 m perovskite single-junction ...

China's GCL SI says it will invest \$2.5 billion to build a new solar panel factory capable of producing 60 GW of panels a year -- enough to meet half of global demand.

GCL has not only ended China's PV industry dilemma of "two ends abroad", but is now playing an important role in promoting the use and the large-scale applications of solar energy in the world.
