-----

Greece-based specialty solar module manufacturer Brite Solar has developed bifacial photovoltaic panels for applications in agrivoltaic greenhouses and canopies. The modules are ...

Our company offers a wide range of passive solar systems with capacities ranging from 100 liters to 500 liters. Our systems are high-performance and aesthetically pleasing.

The Greek Prime Minister, Kyriakos Mitsotakis, inaugurated a new solar park this Wednesday. It is the biggest system with two-sided, or bifacial, panels in Europe.

Our development and manufacturing capabilities allow us to create one of a kind BIPV module design, custom shaped and sized solar solutions for seamless integration to BIPV project.

Brite Solar, a Greek specialty module manufacturer targeting the agrivoltaics greenhouse and PV canopy segments, is building a 150 MW production line. Marketing its modules to farming ...

"By combining our novel coatings with silicon-based solar cells, we have optimized technology suitable for greenhouse applications and crop protective structures, such as canopies, in ...

wpd Solar Hellas develops, finances, invests and operates photovoltaic projects. Utilizing the group's vast experience within the renewable energy industry over the past two decades, we support PV ...

This comprehensive guide examines the top solar companies driving Greece's renewable transformation in 2025, from utility-scale developers to specialized technology providers like Grace Solar, a global ...
