HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, and rapid response.

Rand PV specializes in temperature resistant photovoltaic PV distribution boxes. Combiner boxes save labor and material costs through wire reductions while enhancing overcurrent and overvoltage ...

Highjoule's Outdoor Photovoltaic Energy Cabinet and Base Station Energy Storage systems deliver reliable, weather-resistant solar power for telecom, remote sites, and microgrids.

This Cabinet is fully insulated internally with a thin high spec insulated aluminium Vapour barrier, this will help maintain the Cabinet and 3 storage units warm in the cold and cool in the warm temperatures..

We can provide users with full-scenario lithium battery systems, and provide customized lithium battery solutions to high-end users. Click the link below to download technical documents

The built-in liquid cooling + air cooling dual temperature control system accurately controls the battery operating temperature at 25±3°C, and the battery cycle life is extended to more than 6,000 times ...

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal management, and parallel operation ...

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.
