Learn how to build a DIY solar charger for preppers. This guide ...

What if you could build your own professional-grade, solar-powered charging station for less than the cost of a commercial unit? In this Instructable, I'll show you how to design and b...

And it can charge your phone and USB devices faster than the mere trickle put out by most other homemade solar chargers. That's right -- it's a DIY solar charger that you'll actually use. ...

Learn how to build a DIY solar charger for preppers. This guide covers essential materials, step-by-step assembly, and tips for maximizing your off-grid power solution. Ever thought about ...

Ran out of power? No problem. Learn to build a simple, portable solar charger that will energize your personal devices anywhere you roam!

OverviewUsing LM338 as Solar Controller\$1 Solar Battery Charger CircuitSolar Charger and Driver Circuit For 10W/20W/30W/50W White High Power SMD LedAutomatic Solar Light Circuit Using A RelayUpgrading to A Relay ChangeoverTransistorized Solar Charger Controller CircuitThe DesignSolar Pocket Led Light CircuitSimple Solar Charger For Street LightsThe second design explains a cheap yet effective, less than \$1 cheap yet effective solar charger circuit, which can be built even by a layman for harnessing efficient solar battery charging. You will need just a solar panel panel, a selector switch and some diodes for getting a reasonably effective solar charger set up.
