What is arc resistant switchgear?

Unlike conventional switchgear, arc-resistant switchgear is designed with reinforced compartments that can withstand incredible pressure increases during high-energy arc faults. Arc-resistant switchgear offers a safe, proven, and cost-effective solution to the problem of arc flash events. Why do I need Arc-Resistant Switchgear?

Who makes arc-resistant switchgear?

Crown Arc-Resistant Switchgear Crown Technical Systems is one of the few companies in the world that engineers and manufactures arc-resistant switchgear. Our original engineering team pioneered the widespread use of arc-resistant gear throughout Canada.

What is electrical arc flash?

PPE includes rubberized clothing that does not conduct electricity. An electrical arc flash can happen at any time during your power equipment's lifecycle. Abnormal conditions, such as improper installation, excessive impurities, or failing equipment will increase the risk. One of the critical steps for optimizing safety is to use proper PPE.

What is arc flash relay?

Featuring factory-installed Arc Flash Relay modules and sensors, the system is designed to rapidly detect and clear even the most difficult forms of arc flash events in low-voltage (LV) and medium-voltage (MV) electrical assemblies. Arc faults are the most dangerous type of fault in LV and MV switchgear.

Featuring factory-installed Arc Flash Relay modules and sensors, the system is designed to rapidly detect and clear even the most difficult forms of arc flash events in low-voltage (LV) and medium ...

These protective measures can effectively reduce the risk of injury in arc flash incidents and ensure workers' safety. We offer multiple optional or customized components. These configurations can be ...

Schneider Electric offers a number of arc flash mitigation solutions that make this possible, including switchgear, software, and circuit breakers for both passive and active arc flash protection.

Our arc flash suits and kits are available with a variety of garment styles, hoods, and materials. Arc flash suits can be rated to 8 cal to 100 cal, for category/level 2 to level 4 protection.

Find arc flash protection equipment like rescue hooks, grounding equipment & shock protection at Grainger. Order on Grainger with 24/7 customer service available.

Point Eight Power offers a full line of low- and medium-voltage arc-resistant switchgear to help combat the over 30,000 arc flash incidents that occur each year - causing thousands of injuries and fatalities.

Our arc-resistant switchgear is available in a range of fault current ratings to accommodate various levels of electrical demand and safety requirements. From the more common lower ratings to the ...
