The meaning of MANY is consisting of or amounting to a large but indefinite number. How to use many in a sentence.

Whenever possible, using a single string of lithium cells is usually the preferred configuration for a lithium ion battery pack as it is the lowest cost and simplest.

If a large battery bank is needed, we do not recommend that you construct the battery bank out of numerous series/parallel 12V lead acid batteries. The maximum is at around 3 (or 4) paralleled strings.

In conclusion, creating a reliable and efficient 12V lithium battery pack requires connecting four lithium cells in series. This configuration not only meets voltage requirements but ...

You use many to indicate that you are talking about a large number of people or things. I don't think many people would argue with that. Not many films are made in Finland. Do you keep many books ...

Use equal leads for each string so every lithium battery sees the same resistance. Choose busbars with continuous ratings above the highest expected current, then add a margin for ...

We use many to refer to a large number of something countable. We most commonly use it in questions and in negative sentences: ...

In summary, a standard 12V lithium battery pack typically consists of four cells in series. However, specific designs may vary based on performance needs and battery chemistry.
