What is the HS code for lithium ion accumulators?

Generally, primary lithium-ion cells and batteries fall under the HS code 8507.60. This code specifically covers: Lithium-ion accumulators (another term for rechargeable batteries). This six-digit code is the foundation, but it's important to note that countries often add more digits for finer distinctions.

What HS code is a lithium-ion battery?

Generally, single lithium-ion cells or batteries fall under HS Code 8507.60, but variations exist for different applications like those in vehicles or portable electronics. Consulting customs authorities or a trade specialist is key for accurate classification. Are you trying to ship a lithium-ion battery overseas?

Does solar hybrid code depend on battery chemistry?

Wait, no--that solar hybrid code actually depends on the battery chemistry. See what I mean about complexity? A client recently faced 28% tariffs instead of the expected 6.5% by misclassifying their solar+watt-hour storage combo unit . Since the 2024 IMDG Code updates, three changes are keeping logistics managers awake:

What are HS codes?

Your HS codes determine your compliance, your admissibility, and which supply chain advantages you can capture. See how precision classification can protect your finances and unlock greater strategy. Calculate and analyze tariff impacts in real time with the new Flexport Tariff Simulator. Get started here.

Find the HS code for lithium ion battery with our essential guide. Get accurate classification for your shipments now.

Looking for HS codes? Use Flexport's free Search tool to find the tariff code to correctly classify your goods for customs.

This guide is written from real export and compliance experience. It explains what HS codes apply to lithium-ion batteries, how different countries classify them, what tariffs apply, and how ...

Discover the crucial HS codes for lithium battery packs and their impact on global trade. Learn about energy storage, rechargeable batteries, and EV power in this comprehensive guide.

Find comprehensive Solar Battery HS codes for international trade and customs classification with tariff codes
