Huawei and Sungrow have emerged as the leading global solar inverter manufacturers in the first half of 2025, according to the latest report from Wood Mackenzie. The two companies ...

Building on its experience in storage systems, the company has extended grid-forming functions to PV and PV-plus-storage, enabling inverters to emulate key characteristics of synchronous...

The Huawei solar inverter has emerged as a dominant force in the global solar market, representing one of the most sophisticated and reliable inverter solutions available in 2025.

Since 2015, Huawei has ranked first in global shipments of photovoltaic inverters. It is present in the photovoltaic market in almost all major countries in the world.

On January 6, Huawei FusionSolar will unveil the top 10 smart photovoltaic trends in 2025, highlighting technology advancements, market growth, and the overall industry environment.

Huawei remains a top-tier producer of photovoltaic inverters, commanding 23% of global market share as of Q1 2025 according to Wood Mackenzie"s latest renewable energy report. But how ...

It is estimated that the power density of PV inverters and ESS power conversion systems (PCSs) will increase by more than 30% in the next three to five years, further improving the quality ...

Huawei and Sungrow ranked as the top two global solar inverter manufacturers for the first half of 2025, with scores of 93.9 and 93.7, respectively. This ranking is based on the Global Solar ...
