This article highlights the top 10 lithium-ion battery manufacturers in India in 2025, showcasing their contributions to the country's renewable energy goals and their impact on various ...

India is rapidly consolidating its position as a major hub for lithium-ion battery manufacturing, driven by accelerating adoption of electric vehicles (EVs) and grid-scale energy storage across the country.

India's Battery Energy Storage System (BESS) sector is accelerating at an unprecedented pace. As of September 2025, the country has installed over 204.5 MW (505.6 MWh) of BESS capacity, a ...

By battery type, lithium-ion batteries captured 92.15% of India's battery energy storage systems market share in 2025 and are projected to advance at a 35.2% CAGR through 2031.

Driven by the growing requirement for electric vehicles (EVs), energy storage systems, and consumer electronics, several indigenous firms have stepped forward to establish robust lithium ...

Discover the best lithium battery manufacturers in India for OEMs and distributors. Explore certified lithium battery suppliers, B2B solutions, and custom battery pack manufacturers for ...

Explore the top 10 BESS companies in India driving grid stability, renewable integration, and energy storage growth through policy support and large-scale deployments.

As India accelerates its shift toward clean and sustainable energy, Battery Energy Storage Systems (BESS) have become vital for supporting the country's power infrastructure. From balancing ...
