"Through this strategic partnership with El-Mor, we are delivering the long-duration energy storage technology that will help stabilize Israel's grid, enhance solar integration, and empower a ...

Explore the latest energy storage project by HiTHIUM and El-Mor, enhancing renewable energy in Israel with 1.5 GWh capacity.

El-Mor will design and build battery energy storage systems (BESS) and related infrastructures for multiple projects with a total capacity of 1.5GWh and total power of 300MW.

The Israeli Electricity Authority (IEA) has awarded contracts for 1.5 GW of high-voltage battery storage across 11 projects in a recent tender. The awarded facilities will be developed in ...

HiTHIUM will supply long-duration energy storage for Israeli projects. The agreement with El-Mor Renewable Energy aims to construct 1.5 GWh of storage by 2025. El-Mor, a major Israeli ...

HiTHIUM has partnered with El-Mor Renewable Energy to develop a 1.5GWh long-duration energy storage solution in Israel, enhancing renewable energy reliability.

HiTHIUM, a global leader in long-duration energy storage technology, has announced a strategic cooperation agreement with El-Mor Renewable Energy, one of Israel's largest EPC ...

HiTHIUM and El-Mor sign a strategic agreement for 1.5GWh of BESS projects in Israel, featuring the region's largest PV+BESS installation to support grid stability.
