The alliance would endorse India in achieving its goal of generating 100 GW of solar energy and 175 GW of renewable energy by 2022. The countries would support each other in research and ...

Have fun, support the solar transition and stand a chance to win up to \$500! Simply post a photo of yourself alongside solar panels, tag @TheSunExchange and use the hashtag #SmileforSolar.

Little Sunshine Pledge brings light and hope to those in need. Through solar power, we ignite opportunities and spark ripples of change for generations. We provide free solar power systems to ...

Most people who join see savings between 10% and 15% on their electricity bills. It depends on your utility and local program, but either way, you'll pay less than you would without solar, that's a promise ...

OverviewOther targetsHeadquartersObjectiveGeographical importanceMembersInitiatives and partnershipsProgressIndia, with the support of France, invited multiple nations, such as the United States, Japan and Brazil, to facilitate the infrastructure for the implementation of solar projects. The alliance committed one trillion dollars as investment, and it is committed to making the costs of solar power more affordable for remote and inaccessible communities. The alliance would endorse India in achieving its goal of generating 100 GW of solar energy and 175 GW of renewable energy by 2022. The countries would support each oth...

We compare three technology configurations able to provide dispatchable solar power at times without sunshine: Photovoltaics (PV) combined with battery (BESS) or thermal energy storage (TES) and ...

Spread the sunshine nationwide and in your local community by taking action, joining events, and more.

Join our Sunshine Partner Program to install free solar systems for your business and support orphanages through sustainable energy funding across Southeast Asia.
