What is the Zacks solar industry?

The Zacks Solar industry can be fundamentally categorized into two groups of companies. While one is involved in designing and producing high-efficiency solar modules, panels and cells, the other is engaged in installing grids and, in some cases, entire solar power systems.

Can you buy shares in solar companies?

Purchase shares in solar companies, such as SunPower Corp. (NASDAQ: SPWR), Canadian Solar Inc. (NASDAQ: CSIQ) or First Solar Inc. (NASDAQ: FSLR), directly on the stock market or investigate the many mutual funds that also specialize in solar investments. In an overview of stock sectors, some even focus exclusively on solar.

Why did PV system costs increase in the second-quarter?

Evidently, PV system costs increased in the second-quarter, following the Trump administration's implementation of 10% baseline tariffs in April 2025 (as per Wood Mackenzie's latest report). In particular, the AD/CVD case on solar cells and modules increased module costs by 13% year over year across the distributed generation segments.

Explore the best solar energy stocks to invest in and capitalize on the growing clean energy market. Find top companies driving innovation and strong returns.

List of all solar power stocks as well as stock quotes and recent news.

While the AI-dominated stock market pauses to consolidate, with Palantir Technologies (PLTR) and others declining in recent days, solar stocks have rallied higher after the Trump...

While each solar stock has experienced its own ups and downs, all the names on this list have seen double-digit sales growth on average over the last three years.
