In November 2024, Utilitas Wind Ltd inaugurated Latvia's first storage battery system with a capacity of 10 MW and 20 MWh in Targale, next to the existing wind park.

Amid the global surge of the green energy revolution, solar panels and wind turbines have become icons of a clean future. Yet, behind these prominent devices lies a crucial unsung hero: precision sheet ...

Latvian power storage manufacturers are reshaping Europe's renewable energy landscape with cutting-edge battery systems and grid stabilization technologies. Discover how these solutions support solar, ...

Amid the Baltic region's stringent grid stability requirements, Kehua's C& I liquid-cooled S³-EStore systems have been deployed at a Latvian industrial facility, ensuring uninterrupted ...

The LZY solar battery storage cabinet is a tailor-made energy storage device for storing electricity generated through solar systems. They assure perfect energy management to continue power ...

Why Riga Dingfu's Tech Is Lighting Up the Energy Sector Let's face it - the sun doesn't always shine when we need electricity. That's where Riga Dingfu photovoltaic energy storage ...

With its factory-direct pricing, high efficiency, long lifespan, and safety, HighJoule's BESS Battery Energy Storage Cabinet 200kWh is an ideal energy storage system choice.

Ideal for solar microgrids, peak shaving, PV self-consumption, and emergency backup power, its modular design and 20kW-50kW scalable capacity support up to 75kW photovoltaic input.
