Who is Leclanche?

Leclanche S.A. founded in Yverdon-les-Bains, Switzerland, for the production of dry cells. Leclanche SA is a world leading provider of high quality energy storage solutions using lithium-ion cell technologies to accelerate our progress towards a cleaner energy future.

Who was Georges Leclanche?

Georges Leclanche (9 October 1839 - 14 September 1882) was a French electrical engineer chiefly remembered for his invention of the Leclanche cell, one of the first modern electrical batteries and the forerunner of the modern dry cell battery.

Where is Leclanche located?

The company has its headquarters in Yverdon-les-Bains, Switzerland and production facilities in Willstett in the state of Baden-Württemberg, Germany. Leclanche is the only listed pure play energy storage company in the world. Leclanche was founded in 1909 in Yverdon-les-Bains in the Swiss canton of Vaud.

What is a Leclanche battery?

The Leclanche battery wet cell was the forerunner of the modern zinc-carbon battery (a dry cell). The addition of zinc chloride to the electrolyte paste raises the e.m.f. to 1.5 volts.

Georges Leclanche (9 October 1839 - 14 September 1882) was a French electrical engineer chiefly remembered for his invention of the Leclanche cell, one of the first modern electrical batteries and ...

It was invented by the French engineer George Leclanche around 1866. It used to be the "everyday battery", but it has been replaced by the alkaline battery for most applications. It has much lower ...

Leclanche est une entreprise électrique suisse fondée en 1909 à Yverdon-les-Bains. L'entreprise est créée en 1909, à Yverdon-les-Bains, en Suisse dans le canton de Vaud. Elle tire son nom de la pile ...

Leclanche SA is a world leading provider of high quality energy storage solutions using lithium-ion cell technologies to accelerate our progress towards a cleaner energy future. Leclanche is the only listed ...

The electromotive force (e.m.f.) produced by a Leclanche cell is 1.4 volts, with a resistance of several ohms

where a porous pot is used. It saw extensive usage in telegraphy, signaling, electric bells and similar applications where intermittent current was required and it was desirable that a battery should require little maintenance. The Leclanché battery wet cell was the forerunner of the modern zinc-carbon battery (a dry cell). The ad...

Leclanché ist ein Schweizer Hersteller von Akkumulatoren und Energiespeichersystemen. Leclanché wurde 1909 in Yverdon-les-Bains als Batteriehersteller gegründet. Der Firmenname bezog sich auf ...

Georges Leclanché was a French engineer who in about 1866 invented the battery that bears his name. In slightly modified form, the Leclanché battery, now called a dry cell, is produced in ...

Leclanché is a Swiss lithium-ion cells and related technologies manufacturer founded in 1909. It currently employs over 350 staff and is listed on the SIX Swiss Exchange (ticker symbol "LECN").
