What is a lp503035 lithium polymer battery?

The LP503035 lithium polymer battery is a compact, rechargeable cell measuring 5.3 mm x 30.5 mm x 35 mm, with a capacity of 350 mAh and a nominal voltage of 3.7V. Operating reliably between -20°C and 60°C, it's certified with IEC62133, CE, UN38.3, RoHS, and REACH, ensuring safety and compliance.

Who should use lithium ion polymer batteries?

As with all Lithium-ion polymer batteries and with any power source - they should be used by experts who are comfortable working with power supplies. Adafruit Industries, Unique & fun DIY electronics and kits
Lithium Ion Battery Pack - 3.7V 6600mAh : ID 353 - Need a massive battery for your project?

Does tariff apply to a 3.7 V battery pack?

Tariff may apply to this part if shipping to the United States. Tariff may apply to this part if shipping to the United States. Tariff may apply to this part if shipping to the United States. Tariff may apply to this part if shipping to the United States. 3.7 V Battery Packs are available at Mouser Electronics.

How to charge a lithium ion battery?

However, even with this protection, it is very important that you only use a LiIon/LiPoly constant-voltage/constant-current charger to recharge them and at a rate of 0.25C (1.5A) or less. Like most lithium-ion packs, the batteries we sell do not have thermistors built-in. This is why we suggest charging at 0.2C or even less - 1A max in this case.

Ideal for flashlights, solar lights, torches, toys, radios, and other electronic devices. ... Shop for 3.7v-li-ion-batteries at Walmart . Save money. Live better.

Rechargeable 18650 battery pack cells have a negative electrode (anode) made from lithium compounds. Lithium is a highly reactive material and is much lighter than the hydrogen-absorbing ...

The LP503035 lithium polymer battery is a compact, rechargeable cell measuring 5.3 mm x 30.5 mm x 35 mm, with a capacity of 350 mAh and a nominal voltage of 3.7V. Operating reliably between -20°C ...

Product Description This lithium ion pack is individually boxed for safe shipment. It is made with safe, light-weight 18650 cells for a long life. This fully PCB protected battery pack are UN38.3 certified and ...

The constant annoyance of batteries dying too quickly or failing to hold a charge is finally addressed by my hands-on testing of various lithium-ion cells. After trying everything, I found that the ...

Lithium battery pack 3 7v 5 cells
