This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal management, and parallel operation ...

Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection against water and dust, ...

The 112kWh Outdoor Energy Storage Cabinet is designed for fast deployment with a plug-and-play installation process. Minimal on-site work is required, making it ideal for time-sensitive projects.

Combines high-voltage lithium battery packs, BMS, fire protection, power distribution, and cooling into a single, modular outdoor cabinet. Uses LiFePO4 batteries with high thermal stability, extensive cycle ...

The Outdoor Cabinet Energy Storage System is a fully integrated solution that combines safe battery storage, intelligent power management, and weatherproof protection for solar and telecom applications.

Empower your off-grid projects and grid-support applications with a reliable outdoor battery storage cabinet from TOPBAND. Engineered for harsh climates and demanding workloads, our outdoor ...

Suitable for telecom base stations, remote sites, microgrids, and emergency backup. The system is designed for easy installation in both residential and commercial environments.
