Global South Utilities (GSU) has secured agreements with Madagascar to develop a 50 MW solar plant and a 25 MWh battery energy storage system (BESS) in the island nation. [pdf]

The building will house five new engines that will give MEC an unprecedented level of power generation capacity to power Majuro Atoll from the single new power plant building.

Summary: The largest battery storage project in Majuro represents a critical step toward energy resilience for island communities. This article explores its significance, challenges, and how it aligns ...

Tunisia Energy Storage Investment Project The World Bank is inviting consultants to submit proposals for a technical study on a 350 MW to 400 MW solar project with battery energy storage in Tunisia. ...

"These three new generators will significantly enhance our power generation capacity, reduce outages, and provide more stable and reliable electricity to homes, businesses, schools, and health facilities ...

In order to stabilize power service, the Marshalls Energy Co. was forced to import more than half-a-dozen rental containerized generators last year that currently provide the backbone of ...

Romanian transmission system operator Transelectrica has announced a tender for a battery energy storage project with a 35MW power output and 70 MWh storage capacity. [pdf]

As remote locations like Majuro transition to renewable energy, modular MW-scale storage containers have become critical infrastructure. These systems act as &quot;power banks&quot; for island grids, storing ...
