Our solar panel mesh prevents pests from damaging your solar panels and is made from galvanized steel in order to withstand extreme weather conditions.

Stop pigeons and other animals from nesting underneath your solar panels. The 100-ft roll is now available in two different widths, 6-inch and 8-inch wide rolls.

Our mesh is suitable for a wide range of solar panel systems. It can be easily cut and moulded to fit the specific dimensions of your panels, making installation straightforward.

Solar mesh refers to a modern solar technology characterized by its flexible and lightweight geometric design. Composed of various interconnected solar cells, it provides a distinct ...

Solar panel mesh generally refers to a protective mesh designed to shield solar panels from birds and other animals. These animals, particularly birds, can cause damage to solar panels by nesting under ...

Our PVC-coated galvanized steel mesh keeps birds and critters away, ensuring your solar panels stay in top shape. Quick DIY Installation: You don't need to be a pro to set this up! With our easy install kit, including 80 clips, scissors, and gloves, you'll have your solar panel screen up and running in no time.

Solar panel mesh refers to a specific design of solar panels that incorporates a mesh-like structure. This design allows for enhanced airflow and cooling, which is critical for optimising the ...

The Solar Kit attaches safely to solar panels without causing any damage or voiding the panel warranty. The mesh and clips are durable, weather-resistant, and easy to install on solar units with a bracket ...
