Ideal for microgrids, rural and remote areas, large-scale manufacturing, farms, and EV charging stations, the FlexiO series is a highly integrated battery energy storage system (BESS) engineered to optimize ...

Each BESS container has either a 300kW or 500kW PCS system offering a complete, install ready energy storage system. All system systems are offered with either 400VAC or 480VAC 3 phase ...

The Microgrid System comprising four Galaxy 261 cabinets and an MPS microgrid hybrid inverter, builds on the advantages of full-function integration by combining EMS, PCS, and BMS in a compact design ...

The SFQ Micro Grid PV Storage Cabinet SCESS-T 500KW/1075KWH/A is a high-performance storage system that prioritizes safety and reliability.

500kW power output with modular design, supporting expansion up to 1.5MWh (customizable based on your product specs). Seamless integration with existing inverters for hybrid energy systems.

The equipment warehouse mainly includes the power convert system (PCS) and the energy management system (EMS) control cabinet. PCS can control the charging and discharging process, ...

The FlexiO series is a highly integrated battery energy storage system (BESS) designed to optimize performance and reduce costs for stationary commercial and industrial energy storage applications.

Discover 500kW battery systems for industrial energy storage, featuring lithium-ion and LiFePO4 technology, ideal for solar and backup power.
