This patent-pending design for our lithium-ion battery cabinet offers the highest level of protection. With eight receptacles, it allows for simultaneous charging of multiple batteries up to a ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

This dynamic solution rests firmly on the ground, providing a reliable and adaptable power source for your home. Whether you require a smaller capacity option like our 14.4KWh 48V 300Ah or a larger ...

The core role is to accelerate the battery performance degradation process by simulating the charging and discharging cycle, high temperature/low temperature and other working conditions of the battery ...

The ECO-B418LP-2N is a free-standing battery cabinet featuring pack-level liquid cooling and cell-level temperature balancing. It maintains temperature differences within 3 °C between cells, enhancing ...

*With EMS function, it supports peak and valley arbitrage, virtual capacity increase, emergency power supply, and new energy consumption and energy application.

The Smart-UPS 2kwh battery pack lasts up to two times longer, reducing your maintenance costs and saving you up to 47% in total cost of ownership.

Our lithium-ion battery storage cabinet can intelligently store and schedule electrical energy, enhance energy efficiency, provide stable backup power, and meet the electricity demands of households, ...
