Note that if you declared `var a = new { };` and `var o = new object();`, then there is one difference, former is assignable only to another similar anonymous object, while latter being object, it ...

According to this reference for operator `new`: Global dynamic storage operator functions are special in the standard library: All three versions of operator `new` are declared in the global ...

As researchers and engineers investigate new possibilities, let's explore some recent examples of meaningful work to further renewable energy storage options.

The new keyword in JavaScript can be quite confusing when it is first encountered, as people tend to think that JavaScript is not an object-oriented programming language. What is it? What problems ...

Here are ten notable innovations taking place across different energy storage segments, as highlighted in GlobalData's Emerging Energy Storage Technologies report.

`new String[10]{};` //The line you mentioned above Was wrong because you are defining an array of length 10 ([10]), then defining an array of length 0 ({}), and trying to set them to the same array reference ...

In the specific case of `throw`, `throw new()` is a shorthand for `throw new Exception()`. The feature was introduced in `c# 9` and you can find the documentation as Target-typed new expressions. ...

From iron-air batteries to molten salt storage, a new wave of energy storage innovation is unlocking long-duration, low-cost resilience for tomorrow's grid. As the global energy transition ...
