With rich industry experience, we have deployed more than 5,000 battery swap cabinets and put into use 65,000+ smart lithium batteries, providing convenient services for drivers in more than 35 ...

In August, the Bureau of Overseas Buildings Operations (OBO) installed its first-ever large-scale renewable battery energy storage system at the new U.S. Embassy in Niger.

Sre power has been focusing on battery swapping stations and battery charging cabinets for many years, serving customers in more than 50 countries and regions around the world to quickly land ...

The newly installed battery containers maintain a capacity of 1.5MWh and assuage the embassy's dependence on diesel fuel, allowing the facility to power the site primarily with a clean, renewable ...

HEXUP specializes in providing battery swap stations/cabinets and swapper solutions for electric scooters, ensuring safe charging and convenient lithium battery exchanges.

The main advantage of a modular battery is that it is easy to replace. This project, funded by the World Bank through the International Development Association (IDA), will enable Niger to better balance its ...

As global EV adoption accelerates, battery swap cabinets emerge as a game-changing solution. But why do 68% of urban EV drivers still cite charging anxiety as their top concern?

This transformative project, funded by the World Bank through the International Development Association (IDA), will enable Niger to better balance its energy mix, which is ...
