Paraguay's National Telecommunications Commission (Conatel) confirmed that Claro and Argentina's Nubicom will each receive 200 MHz in the 3.5 GHz band after submitting the only ...

Claro will operate in the 3.5-3.7 GHz range, while Nubicom secured 3.3-3.5 GHz. Both allocations are split into four 50 MHz sub-bands. Claro bid \$2.021 million and Nubicom \$2 million, ...

Regulator Conatel published the tender documents for the award of the 3,500MHz band.

En total, son ocho sub-bandas de frecuencias las que licitó Conatel en la banda de 3.500 MHz, destinadas a la implementación de la tecnología 5G en el país.

A Digital Bridge portfolio company, Andean Telecom Partners entered the market in early 2022, when it acquired BTS Towers. The company's current site count in Paraguay sits at only ...

As of 2023 there was no commercial 5G network rolled out (only small pilots), and the telecom regulator plans to auction 5G spectrum in 2024-2025 with a goal of reaching 50% ...

There are eight frequency sub-bands in the 3,500 MHz band that can be awarded. Victor Martinez, manager of the Technical Office of Conatel, explained that companies operating in the ...

According to the auction rules, Nubicom and Claro are required to deploy at least 100 radio base stations across Paraguay for every 100MHz of spectrum awarded. Furthermore, 10% of ...
